(b) Documentation of Reported Costs. Resident Care Facilities must report the costs of fully depreciated assets and related accumulated depreciation on all reports unless they have removed such costs and accumulated depreciation from the Resident Care Facilities' books and records. Resident Care Facilities must attach to the Cost Report a schedule of the cost of the retired Equipment, accumulated depreciation and the accounting entries on the books and records of the Facility when the Equipment is retired.

(vi) Service of Non Paid Workers. The services must be fully disclosed in the Footnotes and Explanations section of the Cost Report. Both the total Expense and the account(s) in which the expense is reported must be identified.

If the Resident Care Facility converts a portion of the Facility to another program, the Resident Care Facility must:
